

E-Learning Project: MOOC series „Sustainable Use of the Ocean“

Profile of Coordinator

Digital teaching employee/e-learning staff or lecturer; should be familiar with digital teaching/e-learning; **estimated time of commitment:** 15 hours/month from June 2021-July 2022

Tasks of the Coordinator

- **Contact** teachers/researchers to get **existing content** or create **some new**
- **Collect** material
- **Exchange content between the partners** in order to contribute to all sub-MOOCs
- **Structure** material with help of proposed guideline (CAU) and exchange meetings
- **Implement** on MOOC platform (learning management system)

MOOC content

Already existing or new one; **Formats:** video lectures, video of excursion, experiments etc., texts, podcasts, graphics, questions and answers (quiz); **Language:** English (English subtitles possible) **Amount of material:** should correspond to approx. 11 hours per MOOC sub-topic

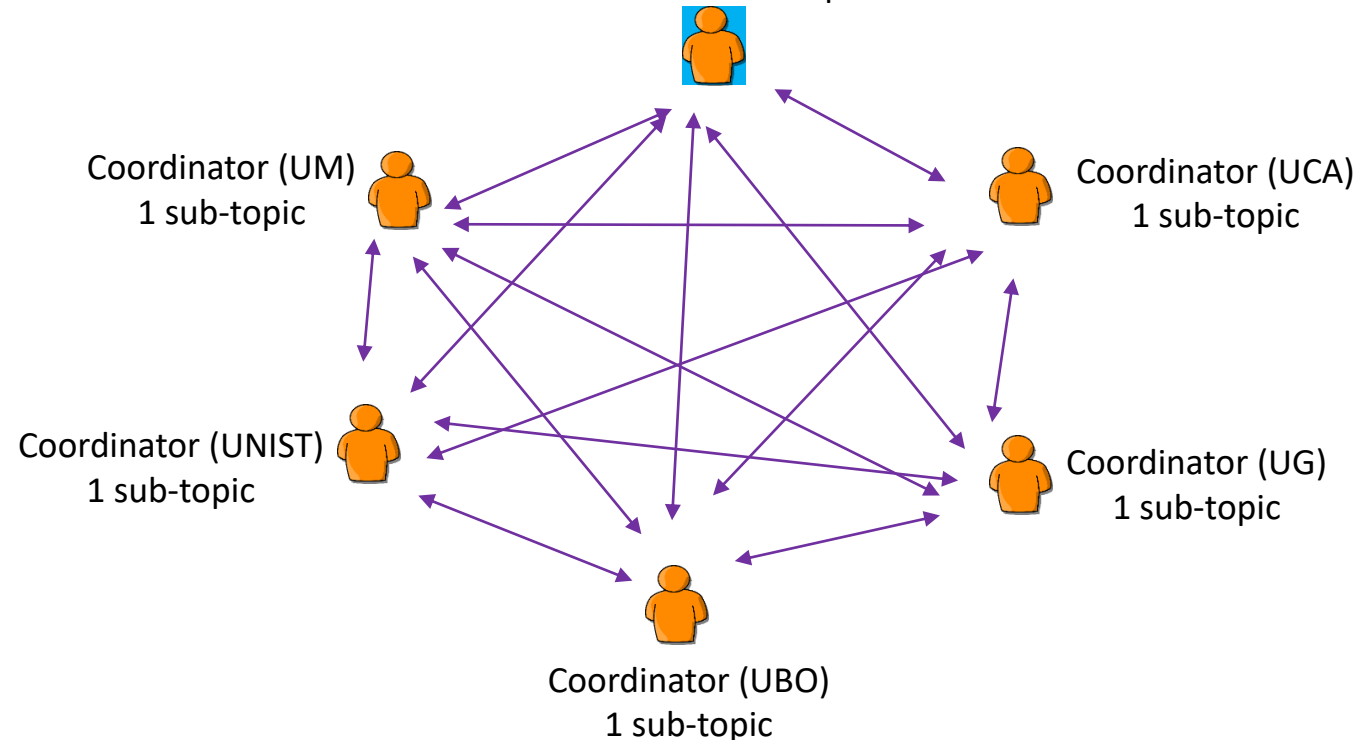

Help

will be proposed by MOOC guideline (roundtable) and through virtual meetings by CAU

Platform

will be proposed and presented by CAU at roundtable

MOOC General Coordination (CAU) Coordinator 1 sub-topic

1 remaining MOOC: will be developed during staff week in March 2022

SOOCs (short open online courses): After the MOOC series would be completed in March 2022, we'll develop SOOCs from the MOOCs. It will take less time, because the MOOC content will only need to be condensed to 1 hour content per sub-topic.
